DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 16 recites the limitation "the top surface" in line 6. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 12-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Balsley (US 4,602,607). The cylinder head 20 has a duct system 60 extending from an engagement surface to the intake system.

Claims 1, 4-7, 12 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Schleiermacher et al (US 0251159). See Figure 7, wherein the cylinder head 3' has a duct system 8' extending from an engagement surface to the intake system.

Art Unit: 3747

Claims 1-7, 12-15 and 17-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoffmann et al (US 6,065,457). See Figure 3, wherein the cylinder head 22 has a duct system 88 extending from a rocker box mounting surface to the intake system.

Allowable Subject Matter

Claims 8-11 are allowed.

Claim 16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

Applicant's arguments have been fully considered but they are not persuasive insofar as they pertain to the above grounds of rejection.

Regarding the rejection of claims 1-7 and 12-15 under 35 U.S.C. 102(b) as being anticipated by Balsley, the rocker cover has an engagement surface corresponding to that claimed.

Regarding the rejection of claims 1, 4-7, 12 and 15 under 35 U.S.C. 102(b) as being anticipated by Schleiermacher et al, the rocker cover has an engagement surface corresponding to that claimed.

Claims 1-7 and 12-15 are not limited to an arrangement with the rocker box separate from the cylinder head. During examination, the claims must be interpreted as broadly as their terms reasonably allow. *In re American Academy of Science Tech Center*, 367 F.3d 1359, 1369, 70 USPQ2d 1827, 1834 (Fed. Cir. 2004).

Art Unit: 3747

Applicant's arguments are moot with respect to claims 17-24 in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
